APPLICATION FOR SPECIAL FUEL AUTHORIZATION

The Special Fuel Authorization License enables farmers, logging companies, construction companies and contractors to purchase tax free non-dyed special fuel into supply tanks of non-highway equipment or into portable slip tanks for non-highway use. The authorization is only valid for purchases from a licensed special fuel distributor selling non-dyed special fuel from a cardlock facility. It **cannot** be used to purchase tax free non-dyed special fuel into your bulk storage tank, or into the fuel tank of your motor vehicle.

The Special Fuel Authorization must be renewed every two (2) years. In accordance with Revised Code of Washington (RCW) 82.38.182 and 82.38.190 each Special Fuel Authorization licensee must keep on-highway and off-highway mileage records for each piece of equipment owned. These records are subject to audit and must be maintained for three years from the purchase date of the fuel.

For purposes of this application, the following definitions will apply:
